About Us

Founded on November 10, 1990, Professional Private Security (PPS) N.V. began as a family business specializing in car alarm installations. Over the years, we grew steadily, becoming a limited liability company in 1993 and expanding our services to meet the growing needs of our clients.

In 1994, we established our first Alarm Center, including Dispatch Services, which completely transformed the field of alarm response in Suriname. In 2002, PPS further diversified by establishing PPS Waardetransport N.V., which offers secure and insured transportation of valuables in accordance with international standards.

Today, with over 500 employees and a portfolio that includes advanced video monitoring, guarding services, alarm response, and executive services, PPS is the trusted partner for residential, commercial, and industrial clients. By using advanced and innovative technology, such as our Video Monitoring software, we continue to redefine security solutions in Suriname.

For over three decades, we have been keeping safe what matters most.

Vision, Mission & Values

To be the single-source authority for security solutions.

To secure what is valued most.

1. Customer-oriented
2. Personal growth
3. Teamwork
4. Communication
5. Loyal
6. Reliable

Our Services & Solutions

We provide comprehensive security solutions designed to protect what matters most. Our services include:

1. Electronic Security Systems
   - Intrusion and fire alarm systems.
   - CCTV systems for real-time surveillance.
   - Installation and maintenance of alarms, access control, and camera systems.
   - 24/7 technical support to ensure uninterrupted security.

2. 24/7 Remote Security Solutions.
   - Around-the-clock alarm and camera monitoring.
   - Smart and interactive video monitoring with immediate action.
   - Seven strategically located Alarm Response Teams for rapid intervention.

3. GPS tracking for vehicle monitoring and fleet security.

4. Guard Services
   Armed and unarmed security officers, trained to ensure a safe environment and prevent incidents.

5. Tailored Security Training
   - Basic and advanced security programs.
   - Safety and security awareness tailored to your business needs.

6. VIP / Executive Security Services
   Discreet, high-level security escort services for diplomats, business executives, and General managers.

7. Valuables Transport
   Secure transport and storage of cash, gold, and other high-value assets following international security standards.

Service Extensions

In addition to our core security services, we provide tailored support solutions designed to meet the evolving needs of our clients and their personnel. These services offer convenience, reassurance, and a seamless experience, especially for international professionals and executive guests, while reinforcing safety in critical moments.

- **24/7 Emergency Hotline – 119**

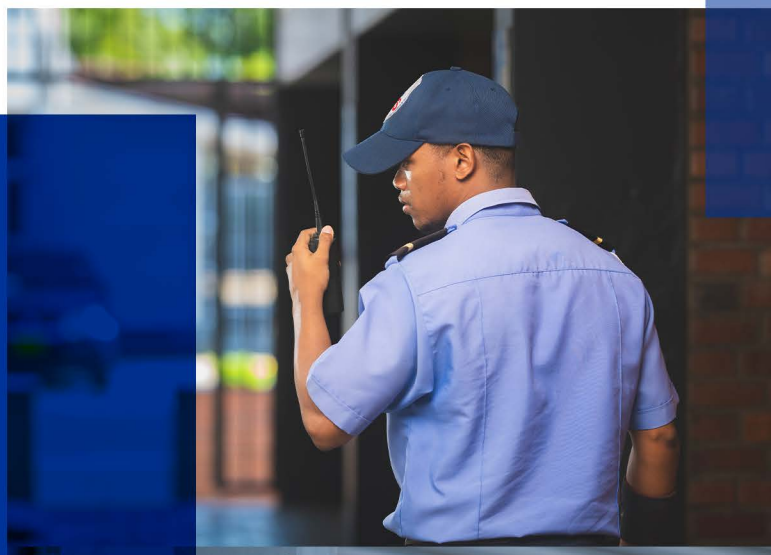

Our emergency line (119) is available around the clock to ensure rapid coordination in case of fire, intrusion, or other critical incidents. This helpline is operated by trained professionals from our Remote Security Center.

- **Roadside Assistance for International Personnel**

We offer dedicated roadside assistance services for expatriates and international staff of our corporate clients. This ensures safety, quick response, and effective communication in unexpected roadside situations.

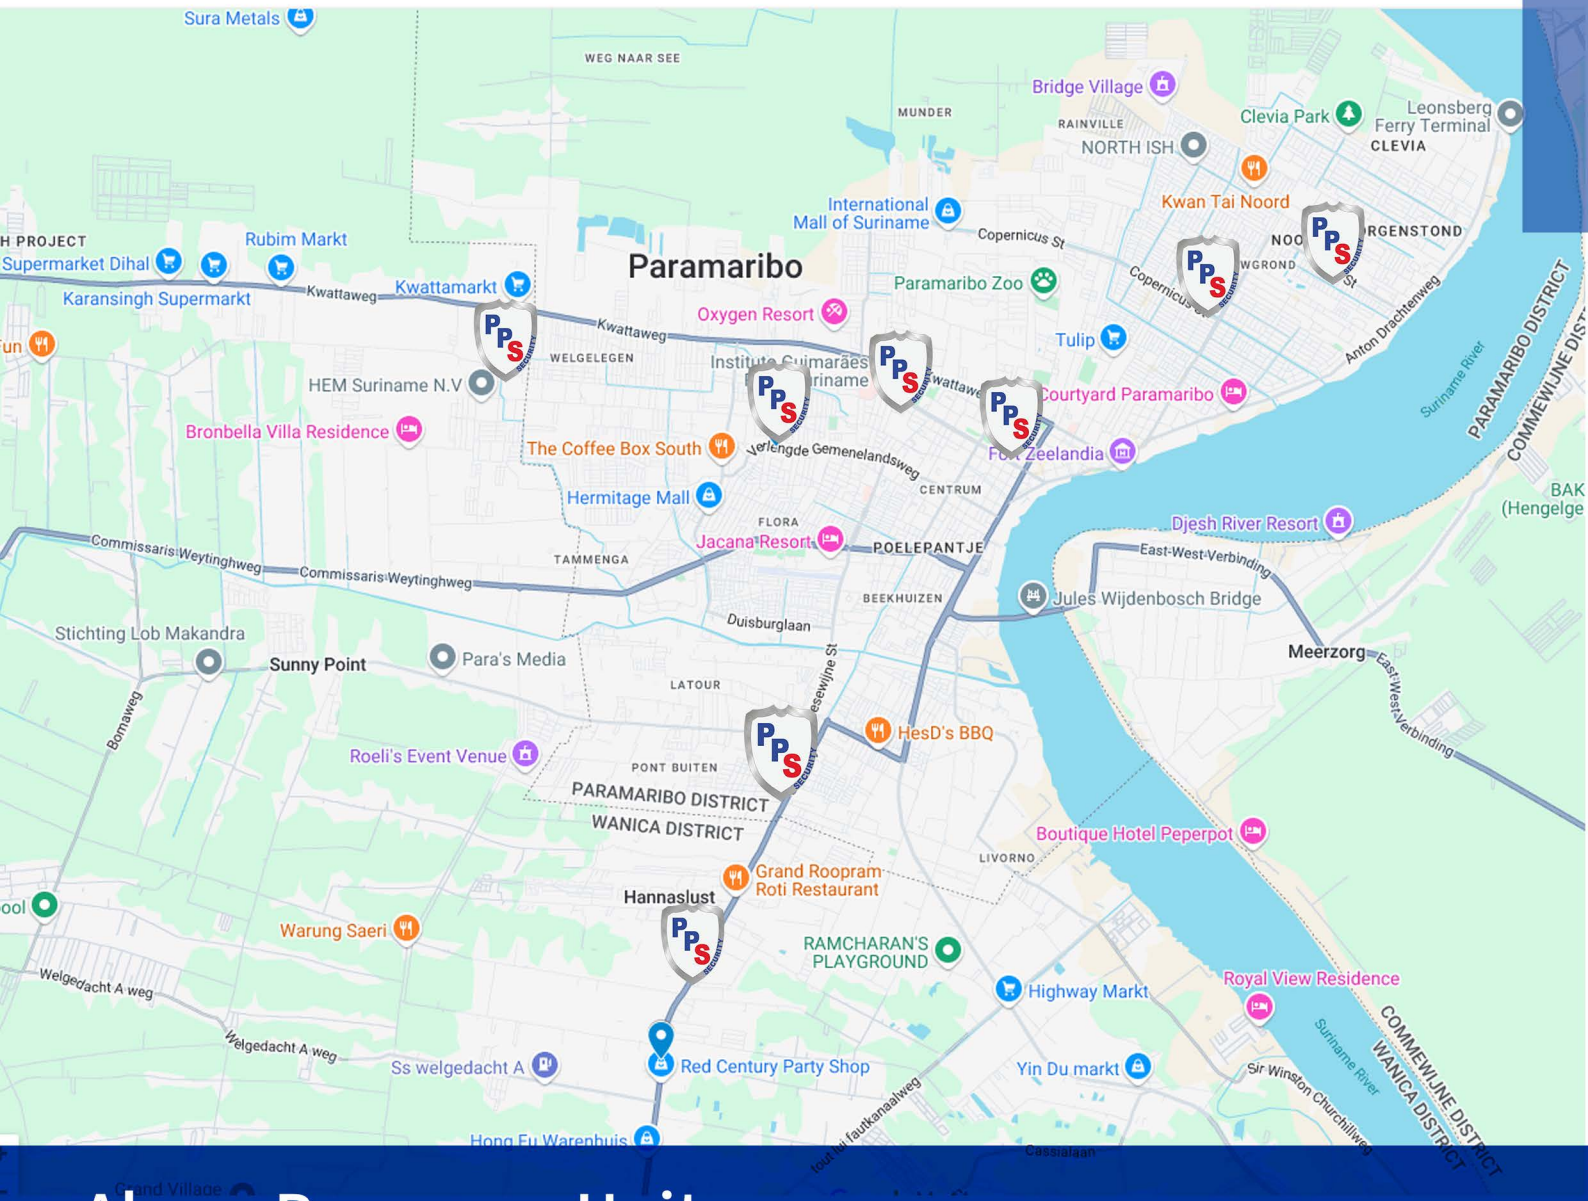

- **Executive Airport Shuttle Services**

PPS provides secure and professional airport transfers for executive visitors. From arrival to final destination, each trip is conducted with discretion, punctuality, and strict adherence to international safety standards.

Alarm Response Units Strategically Positioned for Rapid Action

With eight Alarm Response Units strategically located, PPS ensures swift intervention in the event of emergencies. These units operate 24/7 and are directly connected to our central monitoring center. This setup allows us to respond to alarm signals within minutes, minimizing damage, reducing risk, and enhancing on-site safety.

Expanding Capabilities Future-Focused Security.

We believe that true security evolves with the world around us. In addition to our core services, we are actively developing new, tech-driven solutions to stay ahead of tomorrow's threats.

Our upcoming innovations include:

• Cybersecurity Solutions
In a digitally connected world, information is as valuable as infrastructure. PPS is building a framework to help protect businesses from cyber threats, data breaches, and digital vulnerabilities, ensuring that your assets are protected both physically and virtually.

• Drone-Assisted Surveillance and Alarm Response
Our drone security development will enable smarter and real-time aerial surveillance and alarm response. Drone surveillance is particularly useful for large industrial sites, remote areas, and complex logistical environments..

PPS is fully compliant with Suriname's business, tax, and labor regulations and proudly holds the Blue Wave Platinum Badge, a recognition of excellence in quality, corporate governance, financial integrity, and technical capacity. We align our operations with HSE standards and contribute actively to selected Sustainable Development Goals.

What You Can Expect

- Tailored Security for Industrial Environments

We deliver specialized security solutions designed to protect your workforce, infrastructure, and high-value assets, ensuring continuity and operational stability across all industrial sites.

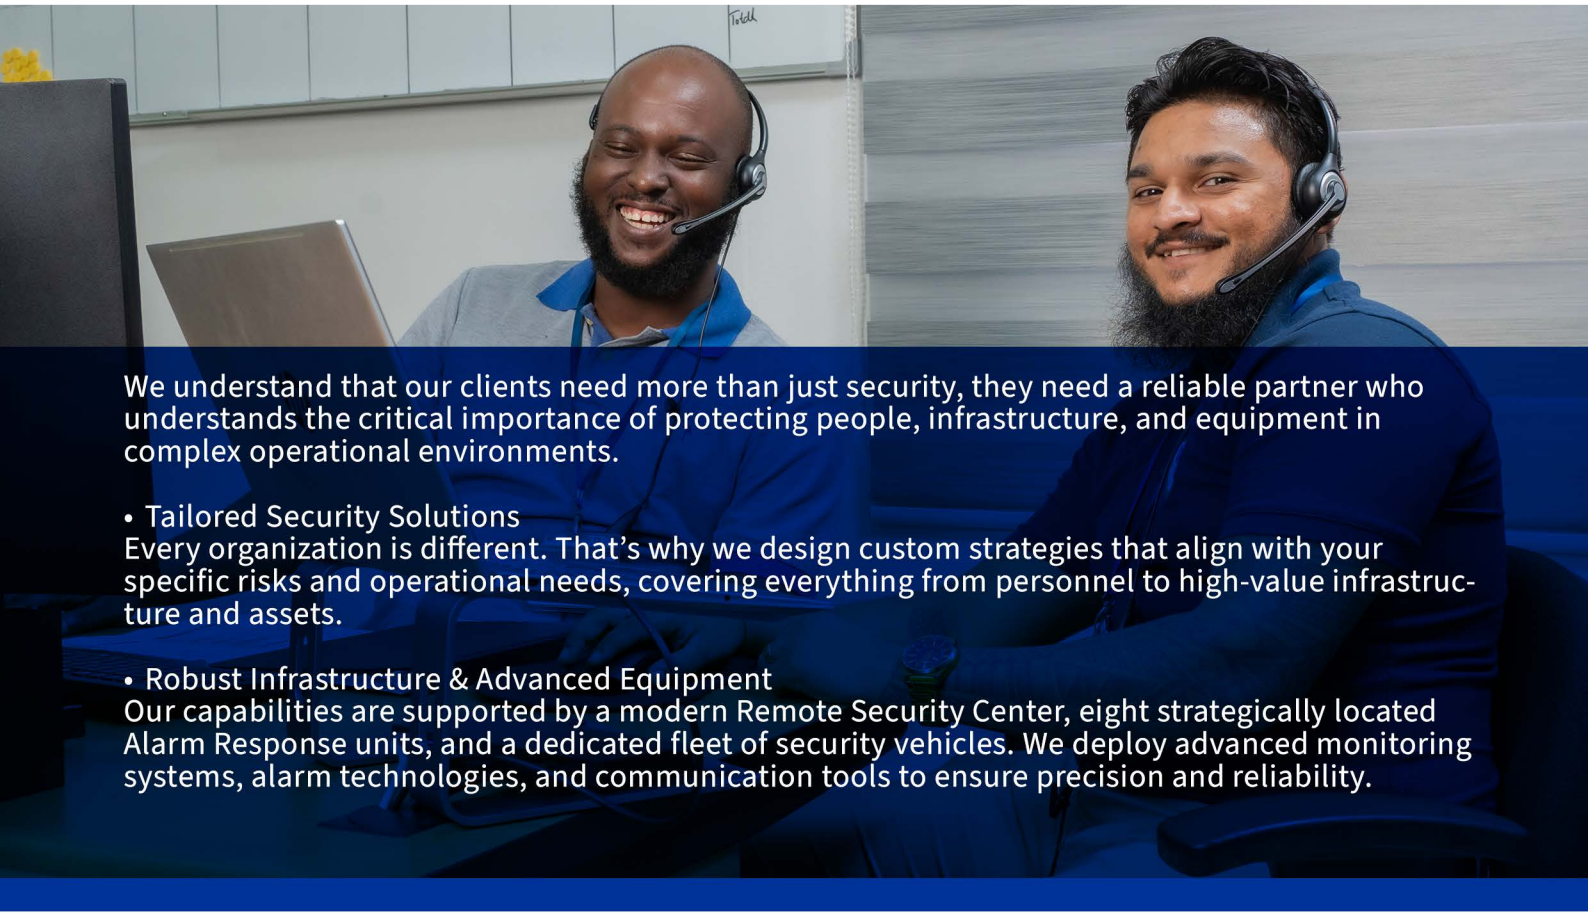

- Proactive Risk Mitigation

With an integrated and preventative approach, we detect potential threats early and respond swiftly, so your team can stay focused on what matters most: running your core business.

Strategic Growth & Commitment

Our growth is driven by our commitment to innovation, industry expertise, and a relentless focus on securing businesses in high-risk environments. Our long-standing presence in Suriname, combined with deep sector knowledge, makes us the preferred security partner for commercial enterprises, multinationals, and the Oil & Gas industry.

Our commitment extends beyond industrial and corporate operations. PPS currently delivers security solutions to over 1500 clients across Suriname. Through 24/7 remote monitoring, alarm response, and customized electronic security systems, we contribute by keeping homes, families, and communities safe.

We understand that our clients need more than just security, they need a reliable partner who understands the critical importance of protecting people, infrastructure, and equipment in complex operational environments.

• Tailored Security Solutions
Every organization is different. That's why we design custom strategies that align with your specific risks and operational needs, covering everything from personnel to high-value infrastructure and assets.

• Robust Infrastructure & Advanced Equipment
Our capabilities are supported by a modern Remote Security Center, eight strategically located Alarm Response units, and a dedicated fleet of security vehicles. We deploy advanced monitoring systems, alarm technologies, and communication tools to ensure precision and reliability.
